

The logo for Freegal Music 4.0 features the word "freegal" in a bold, blue, lowercase sans-serif font. The letters "f", "e", and "a" are partially enclosed by light blue, curved lines that suggest motion or a circular path. Below "freegal", the word "music" is written in a smaller, blue, lowercase sans-serif font, and the version number "4.0" is written in a red, lowercase sans-serif font to the right of "music".

For example:

- Elvis Blue Suede Shoes
- Mozart Piano Concerto
- Loba Shakira

Enter your terms and hit enter or click "Go".

Welcome to the Freegal® Music login page

How Freegal Music Works:

- Library users have a weekly download limit. You will be able to keep track of your downloads in the upper right corner of the site. Every song has a sample clip you can listen to before you download. You must be logged in to enjoy the sample clips.
- The downloads on this site are all in the MP3 format with no DRM, and videos are in the MP4 format with no DRM. This service will work on almost any computer, player, tablet or smartphone. The Freegal Music mobile app is free in the Apple® App Store and in Google® Play
- Music videos will cost you 2 of your allotted downloads. If you do not have 2 downloads available you will not be able to download a music video.
- The search engine is both a simple and advanced search, and will return results primarily by the album that the song is from.

Enjoy the site!

Freegal Music gives you access to over 7 million songs from over 28,000 labels including the Sony Music catalogue of your country.

To stream music, put cursor over album cover, or create a playlist or press the play button on a song.

Freegal® Music Streaming 1-2-3

Your local library has added the ability to stream music, in addition to downloading! What's New:

1. Streaming AND downloading.

You now have a weekly download allotment, and a DAILY streaming allotment. Counters are in the upper right corner and will keep you informed of your allotments and usage.

2. How to stream, how to download.

Nothing has changed with the download functionality, except that the sample clips are now gone. Streaming is, after all, a license to sample!

- a. When you put your cursor over a song or an album, you will see a "stream now" button come up. That's your cue to press that button and start listening. If you press that button on an album, the whole album will play in order.
- b. You can use "Freegal Playlists". This is a list of pre-selected songs in a genre that you are sure to enjoy.
- c. To create a playlist:
 1. Click on "My Playlists" under "Streaming" on the left side.
 2. Click on "Create and Store Playlists".
 3. At the top center, click on the "+" symbol next to "Saved Playlists".
 4. Name your playlist (ex. "The Boss") and describe it (ex. "Bruce").
 5. In that box, click on "Create New Playlist" and your playlist is ready to add music.
 6. Click on the "Home" page and start looking for music to add.
 7. To add an album, move your cursor over an album cover and a += will appear. Click on that, and then add to your chosen playlist option.
 8. To add an individual song, click on the image until you see a play arrow and += sign. Pressing the += will allow you to add the song to your chosen playlist.

3. Go Mobile with Freegal Apps!

As always, Freegal Music is also a mobile experience. The new Freegal Music update for Android and Apple devices is in the stores/marketplace for you to be able to stream ad-free music, at no charge to you.

ENJOY THE MUSIC! FOR MORE INFORMATION, SEE THE FAQs ON THE FREEGAL MUSIC SITE.
